This was a guide I had been looking for. Glad I found it here. Not the greatest condition but that is to be expected when you buy used. Anyhow, now I can hopefully finish this game.

This is a pretty good guide for the game. It doesn't really give any plot points away, except for the final battle, and has battle tips for all the battles you fight--great if you've never played a game with a battle engine similar to this. However, some of the strategies didn't seem to work as well as the ones I came up with. Also, since this is such a linear game with really not many, if any, secret items or other things, you can easily

play this game without the guide. It has no maps or anything, just in-game screenshots to give you an idea of what to look for. If you're new to this sort of battle engine and need some help, or if you somehow get badly stuck, I recommend getting this guide. 1 of 1 people found the following review helpful. OrphenBy A CustomerThe game Orphen is a fun and great game for kids. Your a guy called Orphen who is a scocerer and goes on a ship with 2 annoying kids, his pupil, and a girl. Orphen gets on an island called Chaos Island and must help 3 people to find what there looking for on the island. To my opinion, Orphen is a listening and a using brain game for everyone, and that is my review for orphen.

Can You Solve the Hidden Mysteries of Chaos Island? BradyGAMES Orphen: Scion of Sorcery Official Strategy Guide features a detailed walkthrough with descriptions of each quest, Combat resources list, Elemental and Projectile Sorcery, Complete listings of the weapons and items and where to find them.
