This book isn't perfect but it's very close and the more you practice these licks you'll notice that they are used by so many other guitarist in every genre of music! If you're a Randy fan you can't go wrong with this one!!!0 of 0 people found the following review helpful. Grew Up with this Selection!By Steven M. WalkerI am pleased with the transcriber on this edition. Of course Randy's playing is tough to match, but this provides for me the closest riffs and solos I've ever seen for Randy Ozzy's short work together. What a great talent he was. He had it all in my opinion. Best we can do to honour him, is to attempt to learn his style and propagate these lessons to this instrument-less generation coming up.
