**Leonard Stern, Roger Price : Party Girl Mad Libs (Adult Mad Libs)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Party Girl Mad Libs (Adult Mad Libs):

It was a great way to keep people entertained and have fun in the process. It was tons of fun reading what was written the next day. They sound even more ridiculous and funnier than they did the night before.0 of 0 people found the following review helpful. Adult Mad LibsBy PattieMy

childhood friend introduced me to children's Mad Libs for her kids. It is a fun exercise for kids learning nouns, adjectives, etc... Later we all talked about how funny it would be to have adult themes (not raunchy). Not knowing whether they existed, I found these at and they were perfect as a gag gift for her and her new husband. I bought themes such as "dysfunctional family therapy", "party girls!", "Is your man a catch?" , etc....They loved them! Pattie1 of 1 people found the following review helpful. Just as fun as when I was a kidBy CustomerI do believe that Bust magazine suggested this, and I am really glad that they did. Mad Libs is still a lot of fun, and this particular edition is especially hilarious. This is definitely only for sassy girls and loose-wristed boys who aren't ashamed of being queens.

"Every silly party girl needs 275 things for a night out on the golf course: a wimpy black dress, silver lipstick, and an emergency stash of potato chips, just in case things get slippery!"Sounds like someone has been playing Party Girl Mad Libs! Play them with friends or enjoy them by yourself! Ridiculously simple directions inside!
