Hate itBy Jon Bon RamboniThis book is TERRIBLE.Stay away from this one at all costs. The picture on the cover startled me when I opened the box. Paul Gilbert looks like a psycho.The content of the book is from some DVD he put out in the 80's. If you check it out on YouTube you'll see him trying to be funny while shredding. The entire project is just lame. There's better shred books out there. I traded this book in at my local guitar shop for \$5.

In this companion to his immensely successful REH instructional video, Paul discusses improvising, phrasing, dynamics and feel. The special "Terror Death Licks" section will build your chops and provide insight on how to create your own stunning licks. All music is written in standard notation and tablature.
