Stephen Mansfield, David A. Holland : Paul Harvey's America: The Life, Art, and Faith of a Man Who Transformed Radio and Inspired a Nation before purchasing it in order to gage whether or not it would be worth my time, and all praised Paul Harvey's America: The Life, Art, and Faith of a Man Who Transformed Radio and Inspired a Nation:

Required Reading for Journalists By Mark Sutter This was an enlightening book which I found truly enjoyable to read and the author's storytelling ability should be commended. I wish this book would be required reading for all journalism students and all professional journalists -- especially those working in the mainstream media and especially those working in New York or D.C. It was refreshing to learn that there was actually a journalist who was right-of-center and who could also connect with Americans of all political stripes. From my own listening to Paul Harvey in the 70s and 80s I knew he was a staunch patriot. What I didn't realize is that he started sounding the alarm bells in the 40s and 50s about the dangers of Marxism, socialism, and communism. If you elect to purchase this book I don't think you'll be disappointed.

2 of 2 people found the following review helpful. Worthy Tribute By KC Jack Paul Harvey (Aurandt) was America's greatest radio broadcaster of all time, but will too quickly be forgotten in a culture that has left radio behind. Books and recordings help preserve that memory. Unlike the more biographical "Good Day! The Paul Harvey Story", this book is a collection of episodes from his life, commentaries and historical events that give a good picture of the man himself. A must-read for fellow Paul Harvey aficionados.

0 of 0 people found the following review helpful. Loved it By Doug Noto I miss Paul Harvey and this book brings back all the great memories I had of him as I grew up. A great American who is not ashamed of the United States, it's founding and the moral values which made this land a beacon on a hill for the world.

2009 Retailer's Choice Award winner! In Paul Harvey's America, New York Times best selling biographer Stephen Mansfield and coauthor David A. Holland present a fascinating look at America's most popular radio host. You'll discover how the brutal murder of his father shaped Paul Harvey's life and career; how a high school teacher helped launch him in radio; the truth behind his brief and controversial career in the Air Force; why he was arrested for breaking into a secure research laboratory during the Cold War; why he proposed to his wife, Angel, on their very first date and why it took her a year to say yes; the important role of faith in his life; and how his immeasurable contributions to broadcast history transformed American culture.
