Paul Simon, Mark Hanson : Paul Simon - Transcribed (Paul Simon/Simon Garfunkel) before purchasing it in order to gage whether or not it would be worth my time, and all praised Paul Simon - Transcribed (Paul Simon/Simon Garfunkel):

0 of 0 people found the following review helpful. If you play Paul Simon music....By Father DaleI recommend it. I'm learning a lot from this book.0 of 0 people found the following review helpful. I love this bookBy JakeBefore each song is an exceptional write up explaining all sorts of techniques used by Paul Simon to get the incredible sound that he achieves as a guitarist/musician/composer/etc. Paul Simon is in my top two singer/composers. And what staying power. The guy is in his 70's and still puts out the best music. I have just started using this book and have found it to be pretty easy to use, though it is technically pretty challenging. If you can read tablature and/or music, you will do

well with this book. 1 of 1 people found the following review helpful. Some nice arrangements -By PlumhunterThe tabulature for these songs could have been more interesting - basically a "transcription" of the cords from Simon to guitar tabs. No interpretation or much variation to enhance the voicings. But the title does say "transcribed" and that's basically what I got.

(Music Sales America). Complete note-for-note guitar transcriptions of 10 classic recordings, in standard notation and tablature. Full vocal parts. Includes: Scarborough Fair * 59th Street Bridge Song * Peace like a River * Late Johnny Ace * Kathy's Song * and more.
