Adrian GeekieExact same comment as the previous reviewer. The sales blurb clear states that the audio content can be
downloaded or streamed but it is not possible on my MacBook. Very, very disappointing! Nothing in the description
that says you can only use it on certain devices. Downloaded means downloaded.Update: I was able to stream the
audio on an iPhone. No option to download exists as far as I can see. If you do not have a device that supports the
streaming feature you cannot get the audio. The kindle app on MacBook does not support the streaming. The kindle
app on iPhone does support the streaming. They need to change the product description that makes it clear that the
audio can only be streamed and only on limited number of devices.2 of 2 people found the following review helpful.
DO NOT BUY! THE DESCRIPTION IS NOT ACCURATEBy DiegoThis is a total rip off.... I originally bought the
paper book when it was first released, no audio was included. Now I got this Kindle edition and still no audio. The
description does not match the product. DO NOT BUY!0 of 0 people found the following review helpful. Christmas
giftBy Lanne PChristmas gift for my niece who also plays violin. She liked the music.
