The author is funny!!!!0 of 0 people found the following review helpful. An easy read with author insights based on personal experienceBy rgsalesThe reason I liked this book was the author's different take on how to play the game based upon personal experience. Too often you are told "This is what the book says to do". I liked the fact he mixed in REAL stories with tips on how to play the game. An easy read for beginner as well as experienced players.1 of 1 people found the following review helpful. Ready for Reno!!!By hairbyloraJust finished reading this book!!
